

Save More Patients Money on Prescriptions Automatically

Improve Rx Fill Rates & Adherence

Medicom Health

Review

CARE VISIT

Patients are prescribed medication normally.

EHR MODULE

Our software listens for prescribing events & matches them to a database of manufacturer discounts.

DISCHARGE

Automatically includes discounts on discharge paperwork for all qualified patients.

PHARMACY

More patients fill and adhere to prescriptions.

The result is millions of additional dollars saved by patients each year.

Features

- All brands & generics welcome
- Many popular medications
- First-fills and/or re-fills
- Copay reductions & free trials
- No apps, no extra effort, no confusion
- Starts producing benefits immediately
- No subscription or maintenance fees
- Does not impact workflow
- Downstream from prescribing
- Complements “Meds to Beds” and other patient assistance programs
- Enterprise-wide:
Acute/ambulatory/ED
- Tracking & reporting for compliance
- Non-invasive, software-only IT integration

Examples (Can Be Used at ANY Retail Pharmacy) Automatically Printed with Discharge Paperwork

Minimal EMR Integration

- No additional hardware
- No direct access to your system
- Typically only a few IT configurations are required
- We are HIPAA-compliant & HITRUST Certified
- Numerous installs at major health systems completed.

Estimated implementation project length 50 – 90 hours across 4-6 weeks.

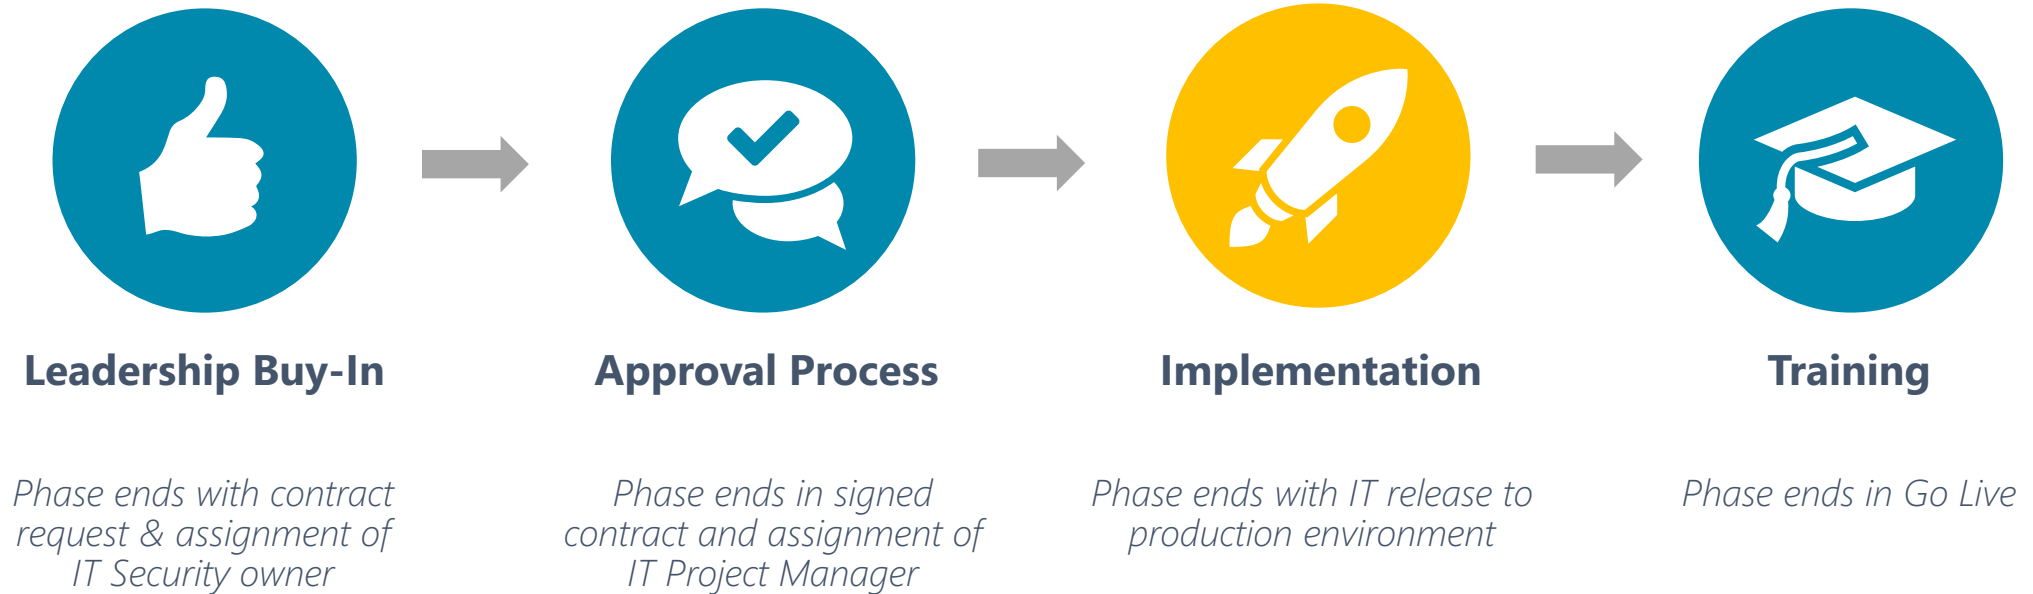

Cleveland Clinic

Cleveland Clinic alone delivers thousands of discounts daily.

Almost a hundred systems are evaluating the solution.

Ultimately, health care providers gain visibility, control, and credit for this part of the consumer experience that is otherwise owned by Pharma brands.

Four Steps to Success

Estimated IT project length is 50 – 90 hours across as little as 6 weeks.

About Medicom Health
